WER IST DER HERRSCHER DER WÜSTE?

🏠 *Der Wüstenplanet* und *Dune* begeistern langjährige und neue Fans des fesselnden Universums, das Frank Herbert in seinem Roman aus dem Jahr 1965 erschuf. Im Jahr 10191 droht dem Universum ein interstellarer Konflikt. Vor diesem Hintergrund berichtet der Film, wie der junge Paul Atreides seiner edlen Bestimmung folgt. Auf Geheiß des allmächtigen Imperators wird Paul auf den ihm unbekanntem Wüstenplaneten Arrakis geschickt, der auch den Namen Dune trägt. Dort leben mächtige Wüstenkrieger, die Fremen. Und Arrakis ist der einzige bekannte Planet, auf dem das kostbare Spice produziert wird. Als sich der verräterische Baron Harkonnen gegen die Familie Atreides wendet, lüftet Paul die tiefsten Geheimnisse des Planeten und seiner Bewohner – und er entdeckt sein eigenes Schicksal.

Auf dem unwirtlichen Wüstenplaneten wimmelt es nur so vor gigantischen Sandwürmern, die den Fremen als Shai-Hulud bekannt sind. Deshalb sind Reisen über Land äußerst gefährlich. Für das Überleben sind Flugzeuge absolut entscheidend. Der Ornithopter wurde so konstruiert, dass er der sengenden Hitze, den Sandstürmen und den Windgeschwindigkeiten von mehr als 800 km/h auf Arrakis trotzt. In mehreren Schlüsselsequenzen spielt der Flieger eine ganz entscheidende Rolle, beispielsweise bei der Ankunft der Familie Atreides in der Hauptstadt Arrakeen und bei Herzog Letos Inspektion der Spice-Ernte, bei der Paul zum ersten Mal die offene Wüste erlebt. Der Ornithopter erinnert an eine Libelle und hat keine Computersysteme an Bord. Am Boden und im Sturzflug lassen sich die acht Flügel an den Rumpf anlegen. Und zum Fliegen müssen die ausgeklappten Flügel sehr schnell schlagen. Die Landebeine lassen sich einziehen, um dem Flugzeug eine bessere Aerodynamik zu verleihen.

LERNE DIE MINIFIGUREN KENNEN

PAUL ATREIDES

Als Sohn eines Herzogs ist dem jungen Paul ein Schicksal vorbestimmt, das nicht einmal sein Adelstitel erahnen lässt. Er wird quer durch die Galaxie geschickt, wo ihn ein spannendes Abenteuer erwartet – und zwar auf einem kargen, unwirtlichen Planeten, auf dem in jedem Winkel neue Gefahren lauern. Der völlig unerfahrene Paul muss seine Ängste überwinden, denn das Schicksal der Galaxie lastet auf seinen jungen Schultern.

DR. LIET-KYNES

Die imperiale Planetologin und Richterin des Wandels wurde vom Imperator damit beauftragt, für einen reibungslosen Machtwechsel auf Arrakis zu sorgen. Sie ist eine Expertin für diesen Planeten und die Bräuche seiner Bewohner. Und ihre Verbundenheit mit Dune geht weit über ihre beruflichen Pflichten hinaus. Schon lange fühlt sie sich eher den Fremden als dem Imperium verbunden.

HERZOG LETO ATREIDES

Herzog Leto ist ein Mann, der sich von zwei Prinzipien leiten lässt: Ehre und Pflicht. Das ebenso edle wie geliebte Oberhaupt des Adelsgeschlechts Atreides muss sein Volk auf einen Exodus in eine neue Welt führen und seinen Sohn Paul beschützen, als sich Kräfte des Bösen vereinen und drohen, den Namen Atreides dauerhaft aus den Geschichtsbüchern zu streichen.

LADY JESSICA

Eine Mutter und Anführerin, die untrennbar mit ihrem Sohn verbunden ist, dem als königlicher Thronfolger ein viel größeres Schicksal vorbestimmt ist. Aus mütterlichen Pflichten wurde mit der Zeit echte Mutterliebe. Als Mitglied des Ordens der Bene Gesserit versteht sie es, andere geschickt mit den geheimnisvollen Kräften ihrer Stimme und ihres Verstands zu manipulieren. Und sie muss Paul darauf vorbereiten, eines Tages eine Armee anzuführen, die den letzten Funken Hoffnung darstellt, um dem Universum den Sturz in die Finsternis zu ersparen.

GURNEY HALLECK

Gurney Halleck ist ein Vertrauter von Herzog Leto und Waffenmeister des Adelsgeschlechts Atreides. Der ebenso respektlose wie schlagfertige Künstler mit dem Schwert beherrscht auch das neunsaitige Baliset meisterlich. Gurney ist bereit, alles zu tun, um den Herzog und dessen Familie zu beschützen. Denn diese Menschen liegen ihm genauso am Herzen wie seine Familie, die ihm von den Harkonnen genommen wurde.

CHANI

Die mächtige Fremem-Kämpferin Chani hat stechend blaue Augen und erscheint Paul in seinen Träumen. Sie ruft Paul dazu auf, zu den entlegensten Winkeln der Galaxie aufzubrechen und sich einem unbekanntem Schicksal zu stellen. Als sich herausstellt, dass sie längst nicht nur ein Traumwesen ist, plagt Paul ein neues Rätsel: Wie kann es sein, dass sich zwei Personen, die sich noch nie begegnet sind, so vertraut sind?

DUNCAN IDAHO

Duncan, der als „außergewöhnlicher Killer“ gilt, ist ein Vertrauter der Familie Atreides und ein echter Taktikfuchs. Als talentiertester Schwertmeister im bekannten Universum hält er immer Ausschau nach unerwarteten Bedrohungen und hat dabei auch den Horizont fest im Blick. Duncan fühlt sich dem jungen Paul und dem Herzog tief verbunden und ist der erste Atreides-Kämpfer, der zur Erkundung des verbotenen Planeten Dune entsandt wird.

BARON WLADIMIR HARKONNEN

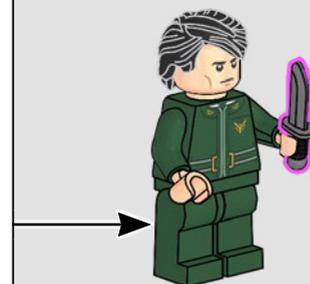

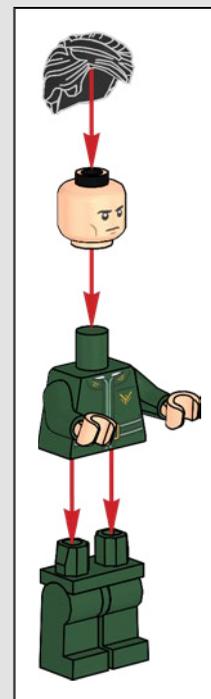

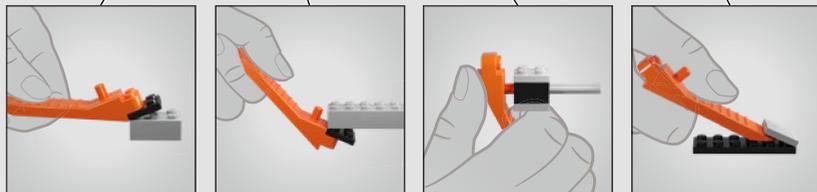

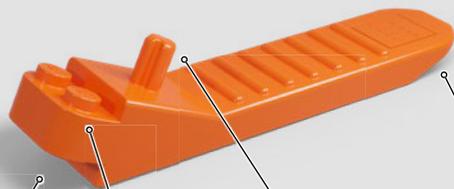

Als machiavellischer Meister der Boshaftigkeit neigt der Baron dazu, seine brutale Seite voll auszuleben. Dieser monströse Grobian trotz der Schwerkraft und schwebt durch die Luft wie ein grausames Phantom. Als Galionsfigur des Adelsgeschlechts der Harkonnen führt Vladimir eine Schreckensherrschaft und ist fest entschlossen, dem Adelsgeschlecht der Atreides nicht nur den Thron, sondern auch die Spice-haltigen Sande wieder zu entreißen. Solange dieser schwarzblütige Tyrann noch atmet, ist niemand vor ihm sicher.

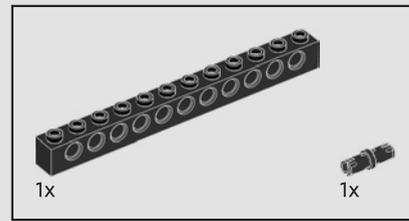

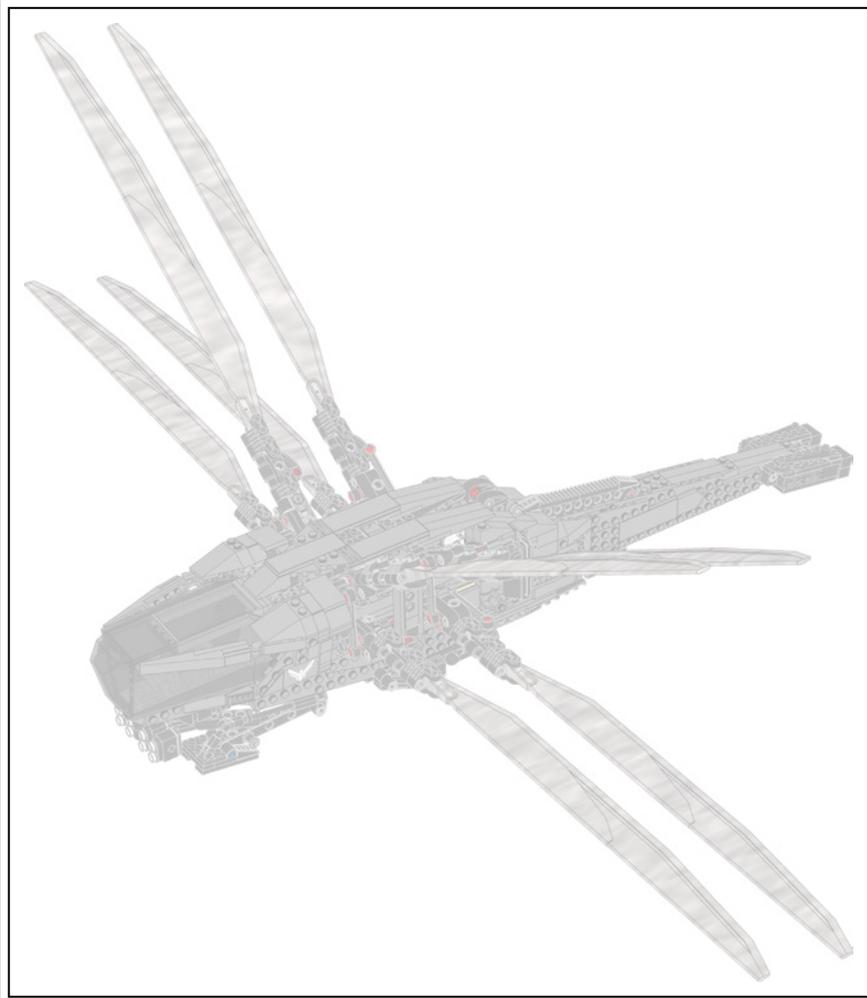

ANMERKUNGEN DES LEGO® DESIGNTEAMS

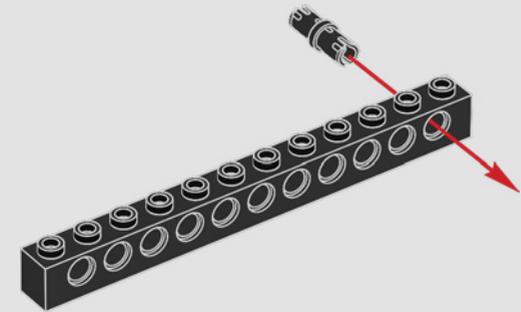

„Dieses LEGO® Modell im Minifiguren-Maßstab ist eine Nachbildung des Atreides Royal Ornithopter aus *Dune*. Das Design ist der Beschreibung in Frank Herberts Roman sehr genau nachempfunden. Und wir dachten uns, dass es echt aufregend sein könnte, ihn als LEGO Version nachzubilden. Legendary und der preisgekrönte Szenenbildner Patrice Vermette haben uns Referenzmaterial in Hülle und Fülle zur Verfügung gestellt, in dem akribisch dargestellt ist, wie alle Details funktionieren und wie das Modell aussehen sollte. Die Filmversion wurde von Patrice und seinem Team am Filmset gebaut, darunter auch ein Modell in voller Lebensgröße mit Flügeln. Wir hatten nur noch die Aufgabe, sie „reell“ darzustellen. Und natürlich mussten wir eine Mechanik austüfteln, um die Flügel schlagen zu lassen und sie ein- und ausklappen zu können. Dies waren einige der kniffligsten Funktionen, was zum Teil daran lag, dass sie sich sowohl einpassen als auch perfekt ans Modell anlegen lassen mussten. Für die Funktion zum Einziehen und Ausfahren der Landebeine haben wir spezielle LEGO Technic Elemente benutzt, damit die Beine genauso funktionieren, wie wir es wollten. Sie sind alle miteinander verbunden und müssen sich im engen Rumpf des Fliegers verstauen lassen. Hoffentlich macht es dir großen Spaß, deinen eigenen Ornithopter zu bauen und zu fliegen!“

*Mike Psiaki,
LEGO® Icons Design Master*
